

Bruhn Spedition – Stainless Steel Discharge Pump

Rotary piston pump for liquid foodstuffs. Assembled in a protecting stainless steel cabinet for multipurpose operation. Electrical drive with variable adjustable rotating speed.

Working pressure limited by integrated pressure valve. Suction-/pressure-pipe connections with 3" Kamlok coupling. Easy cleaning of complete system.

Technical Data

product temperature max. 100° C
 rotating speed 74 – 500 rpm
 working pressure max. 5,5 bar
 capacity max. 32 m³/h

circuit voltage 400 V/50 Hz
 motor power 7,5 kW
 current connection CEE 32 A/5 f/6 h
 dimensions (L x W x H) 1500 x 1000 x 800 mm

Suction side with 3" Kamlok coupling

Variable adjustment of rotating speed by means of handrail

Pressure side with cleaning box
